Methods and Materials for Containment and Cleaning Up

In the event of a spill, eliminate all sources of ignition and take measures to prevent static discharge. No smoking. Stop and contain the spill by using an inert absorbent material (e.g. soil, sand). Dispose of the material by an approved method. Prevent run-off into drains and waterways. Use water spray to disperse vapour. Ensure that the surface (floor) is cleaned thoroughly with water and detergent as any product residue may leave the floor slippery. Ensure that the area is thoroughly ventilated.

7. HANDLING AND STORAGE

Precautions for Safe Handling

No special requirements

Conditions for Safe Storage and Incompatibilities

This product is intended for human use. Store away from dangerous chemicals, naked flames, ignition sources or heat. Store below 25°C (for product integrity). Store in original containers. Keep out of reach of children. Must comply with any regulations for the transport of flammable goods.
